

Flying Day

The real excitement of flying is what we are trying to achieve with our special Flying Day experience. At various private airfields throughout the country you have the opportunity to fly in a Tiger Moth, handle the controls of a Robinson 22 and go through an aerobatic sequence in a Slingsby Firefly involving tight turns, loops and barrel rolls

These maneuvers will also be flown in the Tiger Moth but will have you hanging in your straps exposed to the elements in an open cockpit!

A special WWII, original, flying jacket is provided for the occupier of the front seat!

The opportunity to fly these aircraft is one not to be missed and will be one that the participants will never forget and have them buzzing and motivated for months.

Slingsby Firefly

The costs depend on the airfield and aircraft selected and the format of the day but a typical programme, with the 3 aircraft featured, would be;

- 1000hrs: Meet at airfield crew room/lounge - Coffee & bacon rolls
- 1030hrs: Full briefing including safety procedures.
- 1045hrs: Teams move out to the airfield and one team member boards each aircraft for a 10/15 minute flight. For those waiting other activities can be provided including: Team Exercises, Shooting Disciplines or Off Road Vehicles.
- 1300hrs: 2 course Buffet lunch
- 1400hrs: Return to aircraft and activities
- 1600hrs: Flying ends
- Afternoon tea/coffee and cakes

Robinson 22

The programme outlined above would suit a group of up to **30 people**.

Flying Day = £5,750 + VAT to include Archery and Fun Team exercises. For larger numbers we would simply increase the aircraft available- please ask for specific costs.
